Serge was in Canada. The other Canadian journalist was visiting Ireland. Prior to his death, the Canadian government abducted Serge's daughter in an attempt to dissuade him from pursuing his research into Project Blue Beam. **His daughter was never returned**. Pseudo-heart attacks are one of the alleged methods of death induced by Project Blue Beam.]

[Update from Ken Adachi: **February 17, 2009**: I'm only begininng to now fully grasp the entire breath of Serge Monast's contributions to humanity and the unbelieveable courage he demonstrated in coming out with these incredible revelations which were secretly or anonymously given to him by contrite politicians, military people, or intelligence people who still possessed a conscience and a sense of humanity.

A required companion piece to this article is an astoundingly accurate prophetic discourse presented by Serge in 1994 to the Canadian Free Press

of Quebec, Canada. The plannned NASA/Illuminati script that Serge revealed in that 1994 talk could be taken directly from today's headline news. The transcript of that talk is found here: http://educate-yourself.org/cn/sergemonast1994transcript.shtml

(ca. Dec 1996)

from: http://www.despatch.cth.com.au/Despatch/vol91_Concern.html

*A member of our accountability structure, Dorothy Dart, reports that a Canadian investigator into New Age globalism, SERGE MONAST, has died of a "heart attack." This man has faithfully exposed the New World Order for the last decade. His children were home-schooled, so the authorities took his eight year old daughter away, then his seven year old son was taken, as they said the parents were abusing them emotionally by stopping the children going to a State school. The father was then arrested, and spent the night in jail. **Next day** at home, he had a "heart attack." He was **46 years old**. This brave man has left a wife, who now has no family. Pray that she can get her little ones back. Our source said that the Canadian investigator, Serge Monast, wrote to her in Australia not long ago, saying he had been threatened many times, and did not except to survive.*]

NASA's Project Blue Beam

By Serge Monast (1994)

The infamous NASA [National Aeronautics and Space Administration] **Blue Beam Project** has **four different steps** in order to implement the new age religion with the Antichrist at its head. We must remember that the new age religion is the very foundation for the new world government, without which religion the dictatorship of the new world order is completely impossible. I'll repeat that: Without a universal belief in the new age religion, the success of the new world order will be impossible! That is why the Blue Beam Project is so important to them, but has been so well hidden until now.

Engineered Earthquakes & Hoaxed 'Discoveries'

The first step in the NASA Blue Beam Project concerns the breakdown [re-evaluation] of all archaeological knowledge. It deals with the set-up, with artificially created earthquakes at certain precise locations on the planet, of **supposedly new discoveries** which will finally explain to all people the "error" of all fundamental religious doctrines. The falsification of this information will be used to make all nations believe that their religious doctrines have been misunderstood for centuries and misinterpreted. Psychological preparations for that first step have already been implemented with the film, '2001: A Space Odyssey;' the StarTrek series, and 'Independence Day;' all of which deal with invasions from space and the coming together of all nations to repel the invaders. The last films, 'Jurrassic Park,' deals with the theories of evolution, and claim God's words are lies. http://i.am/jah/evolut.htm

Hoaxed "Discoveries'

What is important to understand in the first step is that those earthquakes will hit at different parts of the world where scientific and archaeological teachings have indicated that arcane mysteries have been buried. By those types of earthquakes, it will be possible for scientists to rediscover those arcane mysteries which will be used to discredit all fundamental religious doctrines. This is the first preparation for the plan for humanity because **what they want to do is destroy the beliefs of all Christians and Muslims on the planet**. To do that, they **need some false 'proof' from the far past** that will prove to all nations that their religions have all been misinterpreted and misunderstood.

The Big Space Show in the Sky

The second step in the NASA Blue Beam Project involves a gigantic 'space show' with three-dimensional optical holograms and sounds, laser projection of multiple **holographic images** to different parts of the world, each receiving a different image according to predominating regional national religious faith. This new 'god's' voice will be speaking in all languages. In order to understand that, we must study various secret services' research done in the last 25 years. The Soviet's have perfected an advanced computer, even exported them, and fed them with the minute physio-psychological particulars based on their studies of the anatomy and

electromechanical composition of the human body, and the studies of the electrical, chemical and biological properties of the human brain. These computers were fed, as well, with the languages of all human cultures and their meanings. The dialects of all cultures have been fed into the computers from satellite transmissions. The Soviets began to feed the computers with objective programs like the ones of the new messiah. It also seems that the Soviets - the new world order people - have resorted to suicidal methods with the human society by allocating electronic wavelengths for every person and every society and culture to induce suicidal thoughts if the person doesn't comply with the dictates of the new world order.

There are two different aspects of step two.

The first is the **'space show**.' Where does the space show come from? The space show, the holographic images will be used in a simulation of the ending during which all nations will be shown scenes that will be the fulfillment of that which they desire to verify the prophecies and adversary events.

These will be projected from satellites onto the sodium layer about 60 miles above the earth. We see tests every once in a while, but they are called UFOs and "flying saucers" sightings.

The result of these deliberately staged events will be to show the world the new 'christ,' the new messiah, **Matraia** (Maitreya), for the immediate implementation of the new world religion. Enough truth will be foisted upon an unsuspecting world to hook them into the lie. "Even the most learned will be deceived."

The project has perfected the ability for some device [referred to as "tractor beams" by ufologists].to lift up an enormous number of people, as in a **Rapture**, and whisk the entire group into a never-never land *We see tests of this device in the abduction of humans by those mysterious little alien greys who snatch people out of their beds and through windows into waiting "mother ships.*" The calculated resistance to the universal religion and the new messiah and the ensuing holy wars will result in the loss of human life on a scale never imagined before in all of human history.

The Blue Beam Project will pretend to be the universal fulfillment of the prophecies of old, as major an event as that which occurred 2,000 years ago. In principle, it will make use of the **skies as a movie screen** (on the sodium layer at about 60 miles) as **space-based laser-generating satellites project simultaneous images to the four corners of the planet in every language and dialect according to the region**. It deals with the religious aspect of the new world order and is deception and seduction on a massive scale.

Computers will coordinate the satellites and software already in place will run the sky show. Holographic images are based on nearly identical signals combining to produce an image or hologram with deep perspective which is equally applicable to acoustic ELF, VLF and LF waves and optical phenomena. Specifically, the show will consist of multiple holographic images to different parts of the world, each receiving a different image according to the specific national, regional religion. Not a single area will be excluded. With computer animation and sounds appearing to emanate from the very depths of space, astonished ardent followers of the various creeds will witness their own returned messiahs **in convincing lifelike reality**.

Then the projections of Jesus, Mohammed, Buddha, Krishna, etc., will merge into one after correct explanations of the mysteries and revelations will have been disclosed. This one god will, in fact, be the Antichrist, who will explain that the various scriptures have been misunderstood and misinterpreted, and that the religions of old are responsible for turning brother against brother, and nation against nation, therefore old religions must be abolished to make way for the new age new world religion, representing the one god Antichrist they see before them.

Naturally, this superbly staged falsification will result in dissolved social and religious disorder on a grand scale, each nation blaming the other for the deception, **setting loose millions of programmed religious fanatics** through demonic possession on a scale never witnessed before. In addition, **this event will occur at a time of profound worldwide political anarchy and general tumult created by some worldwide catastrophe**. The United Nation even now plans to use Beethovan's 'Song of Joy' as the anthem for

the introduction for the new age one world religion. If we put this space show in parallel with the star wars program we get this: combination of electromagnetic radiation and hypnosis which have also been the subject of intensive research. In 1974, for instance, researcher G. F. Shapits, said of one of the research proposals that, '...in this investigation it will be shown that the spoken words of the hypnotist may also be converted by electromagnetic energy directly and to the subconscious part of the human brain without employing any mechanical device for receiving or transcording the message, and without the person exposed to such influence having a chance to control the information input consciously. It may be expected that the rationalized behavior will be considered to have been taken out of their own free will.'

Anyone investigating so-called 'channelling' phenomena right now would be wise to take this area of research into consideration. It will be noted that those who think of themselves as 'channellers' has escalated rapidly since this type of research was conducted. It is uncanny how similar their messages are, despite which entity they claim to be their source of divine guidance. It would suggest any individual considering the credibility of channelled information should be discerning and critically evaluate where the message they are receiving originates, and if the messages are specifically beneficial to the new world order.

The Sydney Morning newspaper published an item on March 21st, 1983 which announced that the Soviets were invading the human mind, the article having been submitted to the foreign editor by **Doctor Nathan Abnuengy**, assistant professor in the faculty of agriculture in Asia. It is worth quoting the article at length even though his grammar is a little old. This article relates to the Soviets who created the supercomputer we were discussing earlier and which is really important because these types of computers can be run through satellites and through space. The computers were fed with all the different languages and their meanings, the dialect of all peoples were fed to the computers with objective programs. But we are no longer talking about the Soviets; we are talking about the **United Nations**, the minions of the new world order, who are feeding the computers with the necessary information.

The editor of the column in which the article appeared even states that the piece made points too important to ignore. I think it is possible that the persons who have created this mega-mind-control-program could sell the software to an organization and not be aware that the client might use the program and data to enslave all of humankind. Just imagine how far they have advanced since that article was published!

Artificial Thought & Communication

The advancement of techniques propel us toward the third step in the Blue Beam Project that goes along with the telepathic and electronically augmented two-way communication where ELF, VLF and LF waves will reach each person from within his or her own mind, convincing each of them that their own god is speaking to them from the very depths of their own soul. Such rays from satellites are fed from the memories of computers that have stored massive data about every human on earth, and their languages. The rays will then interlace with their natural thinking to form what we call diffuse artificial thought.

That kind of technology goes into the 1970s, 1980s, and 1990s research where the human brain has been compared to a computer. Information is fed in, processed, integrated and then a response is formulated and acted upon. Mind controllers manipulate information the same way a computer for grammar manipulates information. In January 1991, the University of Arizona hosted a conference entitled, 'The NATO Advanced Research Workshop on Current and Emergent Phenomena and Biomolecular Systems.' What does that mean exactly? It means this: We refer to one paper that was delivered at the conference which stands out for its different attitude towards the development under discussion at that time. It was, in effect, a protest and chilling warning to the attending scientists about the potential abuse of their research findings.

Their findings, of course, stated that the United States has already developed communications equipment which can make the blind see, the deaf hear and the lame walk. It can relieve the terminally ill from pain without the use of drugs or surgery. I'm not talking about science fiction. A man might retain the use of all his faculties right up to the moment of his death. This communications equipment depends upon a completely new way of looking at the human brain and neuromuscular systems and

radiation pulses at ultra-low frequencies. **Some of this equipment is now operational within the Central Intelligence Agency (CIA), and Federal Bureau of Investigation (FBI).** It will never be used to make the blind see, the deaf hear and the lame walk because it is central to the domestic political agenda and foreign policy of George Bush and his puppet-masters of the new world order.

Domestically, the new communications equipment is being used to torture and murder persons who match profiles imagined to be able to screen a given population for terrorists; to torture and murder citizens who belong to organizations which promote tolerance and peace and development in Central America; to torture and murder citizens who belong to organizations who oppose the development and deployment of nuclear weapons, and to create a race of slave cult automatons, or what is popularly called 'the Manchurian Candidates.' Overseas experimentation is taking place on hostages held by the United States and Canada, Great Britain, Australia, Germany, Finland and France. Additionally, there has been a long series of bizarre suicides among British computer scientists, all of whom have had some connection to the United States Navy.

What is possible to ask before such a psychology of terror is this: would any government, corporation or psychiatrist wilfully promote such horror today? The answer is quite obviously, 'Yes.'

Government agencies and the corporations that work with them toward a new world order are prepared to promote anything that will help them achieve their objective of total social control. As for the question of why: For one thing, if you terrify the public and make them fear for their safety, they will allow you to implement draconian law enforcement practice, disarm them and keep extensive records on them, and they only have to tell you that it is all to protect you, of course. Secondly, it promotes the decay of the present democratic forms of political systems, and leads societies to search for alternative methods of political ideology. Of course, **the alternative has already been planned**. It is called the New World Order

and it will not have your safety or interests at heart. As George Bush said: 'Read my lips.' Fear has always been used by powerful elite to control and subjugate the masses.

The old maxim, 'divide and conquer', is being played out to the limit worldwide to ensure that everyone is frightened for their personal safety, and to be suspicious of everyone else. This, too, is mind-control. To go further in regard to the new technology which is at the base of the NASA Blue Beam Project, we have to consider this statement by psychologist **James V. McConnell** which was published in a 1970s issue of *Psychology Today*. He said, 'The day has come when we can combine sensory deprivation with drug hypnosis and astute manipulation of reward and punishment to gain almost absolute control over an individual's behavior. It should then be possible to achieve a very rapid and highly effective type of positive brainwashing that would allow us to make dramatic changes in a person's behavior and personality.'

Now, when we talked before about that kind of ray and the telepathic and electronically augmented communication, the kind of rays that are fed from the memories of computers which store massive data about humans, human language and dialects, and we said that the people will be reached from within, making each person to believe that his own god is speaking directly from within his or her own soul, we refer to that kind of technology and that kind of thinking that same psychologist was espousing, that is: we should be trained from birth that we should all do what society wants us to do rather than what we want to do for ourselves; that because they have the technology to do it, **no one should now be allowed to have their own individual personality**. This statement and these ideas are important because it is the basic teaching of the **United Nations** that no one owns his or her own personality. And that same psychologist claims that no one has any say-so about the kind of personality they acquire and there is no reason to believe you have the right to refuse to acquire a new personality if your old personality is considered 'antisocial.'

What is important in this declaration is that the new world order will be set up over the current system, meaning the old way of thinking and behavior and religion will be considered the 'old' and incorrect way of thinking and that they can change it at one of the eradication camps

of the United Nations to make sure that anyone with this 'antisocial' behavior will be disposed of quickly so that other modified individuals will be able to fulfill the needs and agendas of the new world order without being distracted by the truth.

Could this be the greatest mind control project ever?

The NASA Blue Beam Project is the prime directive for the new world order's absolute control over the populations of the entire earth. I would suggest you investigate this information carefully before dismissing it as fanatic lunacy. If we go further in the different reports we have presented, we find that the mind-control operations and technology include a transmitter that broadcasts at the same frequency as the human nervous-system, which transmitter is manufactured by the **Loral Electro-Optical System** in Pasadena, California. Loral, a major defense contractor, has previously conducted research on directed energy weapons for **Lt. Gen. Leonard Perez** of the U. S. Air Force who was searching for a weapon that could implant messages into the minds of the enemy while urging his own troops on to superhuman deeds of valor! The device employs electromagnetic radiation of gigahertz frequencies [**microwaves**] pulsed at extremely low frequencies (ELF). It is used to torture people both physically and mentally from a distance.

Weapons of this type are thought to have been used against a British woman protesting the presence of American Cruise Missiles at Greenham Common Airbase during the 1970s. This weapon can be used to induce total sensory deprivation by broadcasting signals into the auditory nerve at such high power that it blocks the ability of the individual to hear themselves think!

The process employed by such ELF technology are described in various U. S. Defense Department publications, including one entitled, **' The Electromagnetic Spectrum and Low Intensity Conflict,'** by **Captain Paul E. Tyler**, Medical Commandant, U. S. Navy, which is included in a collection entitled, '**Low Intensity Conflict and Modern Technology Edict**,' by **Lt. Col David G. Dean**, USAF. The paper was delivered in 1984 and the collection published 1986 by Air University Press, Maxwell Airforce Base, Alabama. Another pulse microwave device can deliver audible signals directly to an individual while remaining undetectable to anyone else. The technology is very simple and can be built by using an ordinary police radar gun. The microwave beam generated by the device is modulated at audio frequencies and can broadcast messages directly into the brain. Now here we come to the NASA Blue Beam Project. The

broadcasting of subliminal two-way communication and images from the depths of space correspond directly to that kind of technology.

In his book, '*The Body Electric*,' Nobel Prize nominee Dr. Robert O. Becker describes a series of experiments conducted in the early 1960s by **Allen Frie** where this phenomena was demonstrated as well as later experiments conducted in 1973 at the Walter Reed Army Institute of Research by Dr. Joseph C. Sharp who personally underwent tests in which he proved he could hear and understand messages delivered to him in an echo-free isolation chamber via a pulsed microwave audiogram which is an analog of the word's sound vibration beamed into his brain. Becker then goes on to state, 'Such a device has obvious application for covert operations designed to drive a target crazy with unknown voices or deliver undetectable instructions to a programmed assassin."

Now figure out when we hear that voice from the new world messiah who would be speaking from space to all of the sane (?) people of the earth who might give instructions to zealots and religious fanatics, we would see hysteria and social mayhem on a scale never witnessed before on this planet. No police forces in the world, even as a combined front, could deal with the disorder that will follow! A 1978 book entitled, '*Microwave Auditory Effect and Application*,' by **James C. Lynn** describes how audible voices can be broadcast directly into the brain. This technology could actually allow the blind to see and the deaf to hear. Instead, it has been turned into a weapon to enslave the world.

Allen Frie also reports that he could speed up, slow down or stop the hearts of isolated frogs by synchronizing the pulsed rate of a microwave beam with the heart itself. According to Dr. Robert Becker, similar results have been obtained using live frogs, which shows that **it is technically feasible to produce heart attacks with rays designed to penetrate the human chest.**

[EDITOR'S NOTE: Both the author of this report and his colleague died of 'heart attacks' only days apart. I should mention also that Dr. Becker does NOT participate in such research.]

It has been demonstrated that focused ultra high frequency UHF electromagnetic energy beams can be used to induce considerable agitation

and muscular activity or induce muscular weakness and lethargy. Microwaves can also be used to burn human skin and aid the effect of drugs, bacteria and poisons or affect the function of the entire brain. These effects were all revealed at length by the CIA on September 21, 1977 in testimony before the Subcommittee on Health and Scientific Research. **Dr. Sidney Gottlieb** who directed the MK-Ultra program at that time was forced to discuss the scope of the CIA's research to find techniques of activation of the human organism by remote electronic means. So this is something that exists right now, that has been pursued to its highest degree, that can be used from space to reach any person, anyplace on the face of the earth.

If we go deeper in that process of mind control over the people we find that the equipment and technology has been used to influence politics in a much more direct fashion. Michael Dukakis, the Democrat candidate running against George Bush in the 1988 election was targeted with microwave technology in order to impede his public speaking performance once the public opinion polls showed he posed a serious threat to Bush's election prospects. He also claims that the equipment was used against Kitty Dukakis and drove her to the brink of suicide. In the Disneyland world of U. S. politics, a presidential candidate with problems such as these, would obviously lose their race to the White House. In the December 1980 edition of the U. S. Army Journal, called the Military Review, a column by **Lt. Col John B. Alexander**, entitled, '**The New Mental Battlefield: Beam Me Up, Spock**,' provides further insight into the technical capabilities at the disposal of the comptroller. He writes:

"Several examples will demonstrate areas in which progress have been made. The transference of energy from one organism to another; the ability to heal ***or cause disease to be transmitted over a distance, thus inducing illness or death from no apparent cause****; telepathic behavior modification which includes the ability to induce hypnotic states up to a distance of 1,000 kilometers have been reported.*

The use of telepathic hypnosis also holds great potential. This capability could allow agents to be deeply planted with no conscious knowledge of their programming. In movie terms, the Manchurian Candidate lives, and does not even require a telephone call. 'Other mind-to-mind induction techniques are being considered. If perfected this capability could allow the

direct transference of thought via telepathy from one mind or group of minds to a select target audience. The unique factor is that the recipient will not be aware that thought has been implanted from an external source. He or she will believe the thoughts are original."

This is exactly what we were talking about.

The third step in the NASA Blue Beam Project is called the **Telepathic Electronic Two-Way Communication**. Lt. Col John Alexander's article continues:

*"If it is possible to feed artificial thought into the multigenic field via satellite, the **mind control of the entire planet is now possible.** An individual's only resistance would be to constantly question the motivation behind their thoughts and not act upon thoughts which they consider to be outside their own ideological, religious and moral boundaries.'"*

Once again, it is wise to consider how television, advertising, modern education and various types of social pressure are used to manipulate those boundaries. It has been reported by Lt. Col Alexander who said, in the summary of his Military Review article,

'The information on those kinds of technologies presented here would be considered by some to be ridiculous since it does not conform to their view of reality. But some people still believe the world is flat.'

Now, this means a lot, because if people do not believe this kind of technology is possible, or that it is science fiction, those people put themselves in great jeopardy, because on the night when those thousand stars will shine from space, during the night when the new messiah will be presented to the world, they will not be prepared and will have no time to prepare to save themselves against that kind of technology. They don't believe and they won't take time to prepare.

(This is exactly what happens to people who are convinced by Satan into believing that he doesn't exist, so they have no defence against him. - JAH.)

Universal Supernatural Manifestations via Electronics

The **fourth step** concerns the universal supernatural manifestation with electronic means. It contains three different orientations.

One is to make mankind believe that **an alien (off-world) invasion** is about to occur at every major city on earth in order to provoke each major nation to use its nuclear weapons in order to strike back. This way, the United Nations Court will require that all those nations which launched nuclear weapons to disarm when the invasion is shown to have been false. And how will the United Nations know that the invasion was false? They will have staged it, of course.

The second is to make the Christians believe that the **Rapture** is going to occur with the supposed divine intervention of an alien (off-world) civilization coming to rescue earthlings from a savage and merciless demon. Its goal will be to dispose of all significant opposition to the implementation of the New World Order in one major stroke, actually *within hours* of the beginning of the sky show!

The third orientation in the fourth step is a mixture of electronic and supernatural forces. The ***waves used at that time will allow "supernatural forces" to travel through optical fibers, coaxial cables (TV) electrical and phone lines in order to penetrate to everyone at once through major appliances.*** Embedded chips will already be in place. *The goal of this deals with global Satanic ghosts projected all around the world in order to push all populations to the edge of hysteria and madness***,** to drown them into a wave of suicide, murder and permanent psychological disorders. After the **Night of the Thousand Stars**, worldwide populations will be ready for the **new messiah to re-establish order and peace at any cost**, even at the cost of abdication of freedom.

Phasing Out Cash & Independence

The techniques used in the fourth step is exactly the same used in the past in the USSR to force the people to accept Communism. The same technique will be used by the United Nations to implement the new world religion and the new world order. A lot of people ask when this is going to happen and how they will accomplish the visions of the Night of a Thousand Stars, and the events that will point to the days when it will begin.

According to the many reports we have received, we believe it will begin

with some kind of worldwide economic disaster. Not a complete crash, but enough to allow them **to introduce some kind of in-between currency** before they introduce their electronic cash to replace all paper or plastic money. The in-between currency will be used to force anyone with savings to spend or turn in their cash because they understand that people who have money and are not dependent upon them might be the very ones who will mount an insurrection against them. If everyone is broke, no one can fund a war of any kind: paper currency will cease to exist. This is one of the first signs.

But to implement the worldwide electronic money system, everyone in the world who might have money in the future, will have to have a way to transfer money electronically. Before that time, everyone will have spent, before the year 2,000, all of their cash, reserves and assets. Everyone has to be 100% dependent upon the Council for their existence. To prevent any kind of independence, the new world order has already **implanted micro chips** in wild animals, birds, fish, etc. Why? They want to make certain that the people who will not accept the New World Order will not be able to hunt or fish any where in the world. If they try, they will be tracked and traced by satellites, then hunted down and imprisoned or killed.

The new world order is already changing the laws of all nations to make everyone dependent upon a single food and vitamin supply. They are changing laws about religion and psychiatric disorders in order to identify anyone who is potentially threatening to the NWO. Those who are found defective will be sent to eradication camps

where their organs will be taken and sold to the highest bidders

. Those who are not killed outright will be used as slave labor or used in medical experiments. The goal of a dictatorship is to control everyone, everywhere on the planet, ruthlessly and without exception. That's why the new technology being introduced everywhere is a technology for the control of the people. The technology of the 1940s and 1950s was used to help the people have an easier and more productive life.

The new technology is designed and built to track down and control people everywhere. This technology is being manufactured for a specific purpose and to refuse to see and recognize that purpose, which is to enslave the

entire populations of the world, is to deny the emergence of the Antichrist and the establishment of the new world order religion and government. **If you cannot see**, *if you cannot learn*, **if you cannot understand**, then you and your family and friends will succumb to the fires of the crematoria that have been built in every state and every major city on earth

, built to deal with you. No one is safe in a totalitarian police state!

Project Blue Beam

(described here)
http://educate-yourself.org/cn/projectbluebeam25jul05.shtml

This is from the International Free Press in Canada.

http://www.100777.com

Note: **Serge Monast** and **another journalist**, both of whom were researching **Project Blue Beam**, died of "heart attacks" within weeks of each other although neither had a history of heart disease. Serge was in Canada. The other Canadian journalist was visiting Ireland. Prior to his death, the Canadian government abducted Serge's daughter in an attempt to dissuade him from pursuing his research into Project Blue Beam. **His daughter was never returned**. Pseudo-heart attacks are one of the alleged methods of death induced by Project Blue Beam.

The International Free Press network is not a religious group, neither is it a political organization, but an independent worldwide investigation press agency in the field of politics, economics, medical and military. We specialize in investigating and publishing special reports and audio-tapes to expose the underworld of the United Nations conspiracy to implement a New World Order.

Our task is to make the people realize that the agenda of the New World Order is not a dream or some wild, paranoid theory; **it is a real, ongoing Satanic project**.

For what?

1. **To abolish all Christian traditional religions** in order to replace them with a one world religion based on the cult of man.

2. **To abolish all national identity and national pride** in order to establish a world identity and a world pride.

3. **To abolish the family as known today** in order to replace them with individuals all working for the glory of the new one world government.

4. **To destroy all individual artistic and scientific creativity** to implement a one world government, one-mindset.

And that kind of declaration of war from the United Nations is for the implementation of a universal, obligatory membership to the United Nations, a strengthening of the UN by a multi-military and multi-police force, a worldwide justice department through the UN with an international tribunal, a worldwide new trade-agreement for all nations, the end of cold war and local wars as they are today, and the obligation for peace by scrapping all national and state constitutions.

Also, a new world religion and a new culture for all men. If we really wish to understand the NASA Blue Beam Project, we have to return to the 'dawning of the age of Aquarius.' Remember that song? That song said, 'When the moon is in the seventh house and Jupiter aligned with Mars, then peace will guide our planet and love will steer the stars.' This related with the year 1982 to be, at that time, the opening for the conspiracy of the age of Aquarius, just before the implementation of the new world order, supposed to begin sometime in 1983.

I have to say that the **Blue Beam Project was set up for the year 1983**. It has been delayed; we don't know exactly why. But, since 1983 (eighteen years before the publication of this report), they have really improved themselves with new technology and innovations in space hardware and software in which they are involved right now to make their systems possible. So, the goals of the new age movement under which the United Nations operates right now, are the implementation of a new world 'messiah.' The tools of the new world order are,

1. an international army;
2. an international police force;
3. a world bank for the economy;
4. a world government under the United Nations;
5. a world conservatory bank for wilderness preservation around the world. That means all 'green' movements will be melded into the new international bank or disappear altogether;
6. a world religion where all church doctrines will be destroyed at the roots to be replaced by the new world religion of the age of Aquarius;
7. the world seven-races classification for all human slaves who will fulfill predetermined work tasks whether they agree with it or not;
8. the world concentration headquarters at the United Nations for those who will not accept the new system;
9. the world agriculture and food supply control which will control food and vitamin supplies around the world.

The new world order will be an 'in-between' government system for USSR, Great Britain and all its commonwealths, and the United States with its melting-pot population. This is, at the end, a new spiritual and political world order that will replace the old ones under which we live right now.

What are the New World Order plans?

They plan on the destruction of all people who believe in the Bible or

worship Jesus Christ, and the complete disappearance of Christianity.

To achieve this plan, the new world order is changing national laws to assure that Christian beliefs and symbols - like the cross, for instance, will become outlawed and unlawful. Religious holidays and ceremonies will be replaced with new age festivities around the world. The elimination and complete destruction of all secret societies and secret brotherhoods, lodges and sanctuaries, all of which they view as the most serious threats to their survival after the implementation of the one world religion and one world government.

The new world order also plans the abolition of all national currencies, and the transfer of commerce to electronic cash through the superhighway. The thinkers and the basic doctrine of the new age conspiracies books are: Helena Petrovna Blavatsky

, who wrote 'Isis Unveiled' and 'The Secret Doctrine.'

Alice A. Bailey

who wrote 'The Race and the Initiation and Externalization of the Heirarchy;' 'Initiation: Human and Savior;' 'The Reappearance of the Christ.' (*Their* Christ is the new messiah). 'The Destiny of the Nation,' in which are plans for the disposition of the nation-states; 'The Unfinished Autobiography;' 'Disciplineship and the New Age;' 'Esoteric Psychology.'

These books are very important for new age thinkers who are exactly the ones who are conspiring to implement the New World Order.

Also, the writing of **Nicola Roerich**, who wrote, '**Matraia, (Maitreya)**' (that's their new messiah); '**Shambala, The Resplendent**,' and '**The Agni Yoga Series**.'

David Spangler who wrote, 'Revelation: The Birth of a New Age,' considered as the 'bible' inside the new age movement; 'Reflections on the Christ,' which is related to the Luciferian initiation; 'Links With Space,' which maintains that off-world aliens are supposed to come to save earthlings from themselves; 'Relationship and Identity,' 'The Love of Manifestation,' 'New Age Rifts,' and 'Toward a Planetary Vision,' which is directly related to the visions of the new world order, as they plan it to be.

Now...what those people also plan - and I repeat, this is not a dream and is not paranoid thinking, this is real. They plan that in order to accept the new world order, all people must first accept the new age religion; to enter into the new world religion, the Christian will have to abdicate their own beliefs. So, as they said, the initiation will be on a worldwide basis inside the newly organized new Christian church (which will be a reorganized and strictly controlled Masonic temple) occult organization based on a Luciferian initiation. What we have to understand here is that no one will be able to maintain their old beliefs and, at the same time, enter into the new age religion. It will be impossible.

For those who will not accept the new world order, who will reject it, the new world order people have already built re-education concentration camps and, for those camps, they have established what they call the 'rainbow classifications' of the new world order prisoners. The rainbow is considered as the 'bridge' leading to the Satanic empire of the new world order.

We already know, for instance, that everyone will have to take an oath to Lucifer in order to cross that bridge into the new age. All who resist that initiation will be sent to detention facilities where they will be separated into different categories, known as the **Rainbow classification** of the new world order prisoners.

1. Classification of Christian children, as planned, is to be as human sacrifices where, within the black mass ceremonies, they will be forced to participate in any kind of sexual orgies or be kept as sexual slaves.
2. Classification of prisoners to be used in medical experiments where drugs and new technologies will be tested on humans.
3. Classification of healthy prisoners for the International Organ Donation Center where vital

organs will be removed one by one while they are kept alive by mechanical devices.
4. Classification of all healthy underground workers. The new world order is basically a worldwide dictatorship based upon the Luciferian religion; a dictatorship with the illusion of democracy. In order to maintain the illusion of democracy, camps and slave labor will be hidden underground in massive colonies that are being built as we write this report.
5. Classification of 'Uncertain Prisoners.' In the international 're-education' center, political and religious prisoners will be re-educated (by whatever means are required) so that they may repent on international television programs and glorify the virtues of the one world government for the benefit of all humanity.
6. Classification of the International Execution Center. Clear enough!
7. Classification seven. We are still waiting on the details of the Seventh Classification, and we are awaiting verification of the colors to be assigned to these classifications of prisoners, but this is the basic agenda of those who have planned the new 'paradise' world of the future.

You must understand that when I decided to release, about six months ago, some of their plans and information concerning their most important project, which is the NASA Blue Beam Project

, I wasn't certain if I would survive my stand against the new world order's plans to put down on their knees all of the world's cultures and religions.

But, now, following my own Christian conscience, my real and deep love for all my unknown brothers and sisters in America and throughout the world, I freely accept to give my life if it has to be the case for the truth, for Jesus Christ, by releasing for the first time, the four major steps of the Satanic Blue Beam Project. I ask everyone who reads the following descriptions not to be paralyzed by their natural fears, but to spread to everyone the contents of this special report, and to gather together in order to commune, to think and to organize ways to survive the new world order government showdown and power taking, because what we have to understand is that the new world government will not be something permanent, immortal; this is not the case. But what we have to do right now is learn how to organize to survive such **satanic plans**.

When Seeing and Hearing Isn't Believing

By William M. Arkin Special to washingtonpost.com
Monday, Feb. 1, 1999

'Gentlemen! We have called you together to inform you that we are going to overthrow the United States government.' So begins a statement being delivered by Gen. Carl W. Steiner, former Commander-in-chief, U.S. Special Operations Command. At least the voice sounds amazingly like him. But it is not Steiner. It is the result of **voice 'morphing' technology** developed at the Los Alamos National Laboratory in New Mexico.

By taking just a 10-minute digital recording of Steiner's voice, scientist George Papcun is able, in near real time, to clone speech patterns and develop an accurate facsimile. Steiner was so impressed, he asked for a copy of the tape. Steiner was hardly the first or last victim to be spoofed by Papcun's team members. To refine their method, they took various high quality recordings of generals and experimented with creating fake statements. One of the most memorable is Colin Powell stating 'I am being treated well by my captors.' 'They chose to have him say something he would never otherwise have said,' chuckled one of Papcun's colleagues.

A Box of Chocolates is Like War

Most Americans were introduced to the tricks of the digital age in the movie *Forrest Gump*, when thecharacter played by Tom Hanks appeared to shake hands with President Kennedy. For Hollywood, it is special effects. For covert operators in the U.S. military and intelligence agencies, it is a weapon of the future. [A weapon to be used against ANYONE who is considered ENEMY OF THE STATE]

'Once you can take any kind of information and reduce it into ones and zeros, you can do some pretty interesting things,' says Daniel T. Kuehl, chairman of the Information Operations department of the National Defense University in Washington, the military's school for information warfare. Digital morphing - voice, video, and photo - has come of age, available for use in psychological operations. PSYOPS, as the military calls it, seek to exploit human vulnerabilities in enemy governments, militaries and populations to pursue national and battlefield objectives.

To some, PSYOPS is a backwater military discipline of leaflet dropping and radio propaganda. To a growing group of information war technologists, it is the nexus of fantasy and reality. Being able to manufacture convincing audio or video, they say, might be the difference in a successful military operation or coup.ÊÊ [Your head on Lee Harvey Oswald's body - you ARE guilty and a jury of YOUR PEERS will convict YOU 'for them'!] ----------
---

Allah on the Holodeck

Pentagon planners started to discuss digital morphing after Iraq's invasion of Kuwait in 1990.

Covert operators kicked around the idea of creating a computer-faked videotape of Saddam Hussein crying or showing other such manly weaknesses, or in some sexually compromising situation. The nascent plan was for the tapes to be flooded into Iraq and the Arab world.[NO - they did it DURING DESERT STORM - see DSWCC 'The voice of God'] The tape war never proceeded, killed, participants say, by bureaucratic fights over jurisdiction,
skepticism over the technology, and concerns raised by Arab coalition

partners. [BUZZZ - it proceeded, tested - perfected.] But the 'strategic' PSYOPS scheming didn't die. What if the U.S. projected a holographic image of Allah floating over Baghdad urging the Iraqi people and Army to rise up against Saddam, a senior Air Force officer asked in 1990? According to a military physicist given the task of looking into the hologram idea, the feasibility had been established of projecting large, three-dimensional objects that appeared to float in the air. But doing so over the skies of Iraq? To project such a hologram over Baghdad on the order of several hundred feet, they calculated, would take a mirror more than a mile square in space, as well as huge projectors and power sources. And besides, investigators came back, what does Allah look like?

The Gulf War hologram story might be dismissed were it not the case that washingtonpost.com has learned that a super secret program was established in 1994 to pursue the very technology for PSYOPS application. The '**Holographic Projector**' is described in a classified Air Force document as a system to 'project information power from space ... for special operations deception missions.'

War is Like a Box of Chocolates

Voice-morphing? Fake video? Holographic projection? They sound more like Mission Impossible and Star Trek gimmicks than weapons. Yet for each, there are corresponding and growing research efforts as the technologies improve and offensive information warfare expands. Whereas early voice morphing required cutting and pasting speech to put letters or words together to make a composite, Papcun's software developed at Los Alamos can far more accurately replicate the way one actually speaks. Eliminated are the robotic intonations. The irony is that after Papcun finished his speech cloning research, there were no takers in the military. Luckily for him, Hollywood is interested: The promise of creating a virtual Clark Gable is mightier than the sword. Video and photo manipulation has already raised profound questions of authenticity for the journalistic world. With audio joining the mix, it is not only journalists but also privacy advocates and the conspiracy-minded who will no doubt ponder the worrisome mischief that lurks in the not too distant future. 'We already know that seeing isn't necessarily believing,' says Dan Kuehl, 'now I guess hearing isn't either.' William M. Arkin, author of 'The

U.S. Military Online,' is a leading expert on national security and the Internet. He lectures and writes on nuclear weapons, military matters and information warfare. An Army intelligence analyst from 1974-1978, Arkin currently consults for Washingtonpost.Newsweek Interactive, MSNBC and the Natural Resources Defense Council.ÊÊ

GET READY: Emails re-arranged to seem like a death or bomb threat, your telephone conversations re-arranged after you use words to describe a movie you saw and over 'time' with ECHELON recording your conversations, they will have your vocabulary of words in YOUR VOICE and now when they want to prosecute you of a crime THEY COMMIT - suddenly they can have audio recordings and video footage of you being in some location and
the jury hear you say what your enemies want them to hear. GUILTY - OFF WITH HIS HEAD, DEATH! A jury of your peers will believe and convict you. We are coming full in this civilization where all deception will become the way of life, all lies will become truth, and truth will no longer exist. IT WILL BE TOTAL ILLUSION NOW OVERT based on Evil. DSWCC

Introducing Project Blue Beam Patrol

In cooperation with TRW Space and Technology, NASA and other world space agencies, the Bilderberg group has developed a series of three stationary satellites with advanced laser technology that enable them to project holographic images onto the earth's surface from outer space!

This amazing technology allows Project Blue Beam Patrol to create holographic decoys of Police Officers that will patrol our city streets along with and among our own finest. The criminals will not be able to tell which are the real officers and which are the holograms.

BLUE BEAM PROJECT

by Jim Seabourn (crtisad@inland.net)

WHAT IS THE 'BLUE BEAM PROJECT'?
From the INTERNET, courtesy of Calvin Burgin, wrldline@texas.net
7/29/98:

It involves two things. A technologically simulated 'second coming' and the re-emergence of the new 'MONTAUK'-type projects that have the ability to take up a whole bunch of people as in a 'rapture' type of situation and whisk the whole bunch into never-never land. Ironically, portions of the holographic projections have the potential for changing the planet into oneness with God. Unfortunately, this operates on the premise that Man shall somehow become God in human form and control other Men and dictate all actions and thoughts.

The calculated resistance to the new religion, the New World Order and the new 'Messiah' will entail human loss on a massive scale in the ensuing 'holy wars'. The 'BLUE BEAM PROJECT' will pretend to be the universal fulfillment of the prophecies of old; as major an event as that which took place 2000 years ago. In principle, it will make use of the sky as a holographic projection screen for space-based laser-generating satellites [star wars]. These projectors will project simultaneous images to the four corners of the planet, in every language by region. It deals with the religious aspect of the New World Order. The system has already been tested. Holographic projections of the 'Christ Image' have already been seen in some remote desert areas. These have only been reported in tabloid papers, so they are instantly rendered moot. They can also project images of aliens, monsters, angels - you name it. Computers will coordinate the satellites and software will run the show-and-tell. Holography is based on very nearly identical signals combining to produce image, or hologram, with depth perception. This is equally applicable to acoustic [ELF, VLF, LF] waves as it is optical phenomena. Specifically, the 'show' will consist of laser projections of multiple holographic images to different parts of the planet, each receiving different images according to the predominating regional religious faith. Not a single area will be excluded. With computer animation and sound effects appearing to come from the depths of space, astonished followers of the various creeds will witness their own returned Messiah in spectacularly convincing lifelike realness.

The various images of Christ, Mohammed, Buddha, Krishna, etc., will merge into ONE after 'correct explanation' of the mysteries, prophecies and revelations are disclosed. This 'ONE GOD' will in fact function as the Anti-Christ', who will 'explain' that the various scriptures 'have been misunderstood' - that the religious of old are responsible for turning brother against brother, nation against nation - that the religions of the world must be abolished to make way for the GOLDEN AGE [NEW AGE] of the One World Religion, representing the One God they see before them.

Naturally, this superbly staged, full-scale production will result in social and religious disorder on a massive scale. Wonder what the television transmitters of religious networks will be doing on that day? But before all this, they have to go through four different steps in order to get to Project Blue Beam.

1: The first step concerns the breakdown of all archaeological knowledge. It deals with **staging earthquakes at certain precise locations** around the planet where supposed new 'discoveries' will finally explain [for them] that the meaning of the basic doctrines of all the world's major religions are 'wrong'. This falsification will be used to make the population believe that all religious doctrine has been misunderstood and misinterpreted. The falsification started with the film *2001: A Space Odyssey*, the TV-series STAR TREK, the INDEPENDENCE DAY film, E.T., all of which deal with space 'invasion' and 'protection'. JURASSIC PARK was to push the theory of evolution.

2: The second step deals with the **gigantic space show**: 3D optical holograms and sounds, laser projections of multiple holographic images in different parts of the world, each receiving a different image, according to its predetermined original national religious faith. This new 'god' image will talk in all languages. As an example, the Soviets have manufactured the advanced computers and have programmed them with the minute psychological particles based upon their studies of the anatomy and biology of the human body, as well as their studies on the anatomy, chemistry and electricity of the human brain. These computers have also been fed with the different languages of the world.

3: The third step deals with the telepathic electronic two-way communications, where ELF [Extra Low Frequency], VLF [Low Frequency] waves will reach the people of the Earth through the insides of their brains, making each person believe that his own God is speaking to him from within his own soul. Such rays, from satellites, are fed from the memory of computers that store much data about the human being and his languages. These rays will then interlace and interweave with the natural thinking processes to form what we call the ARTIFICIAL TALK.

4: The fourth step involves universal supernatural manifestations using electronic means. This step contains three different orientations:

The first one is to make mankind believe that an alien invasion is about to occur upon every major city on the Earth. This is to push each major nation into using its nuclear capability to strike back. In this manner, it would put each of these nations in a state of full disarmament before the United Nations after the false attack.

The second is to make the 'Christian' believe that a major rapture is occurring, with a simple 'played' divine intervention of an alleged 'good' alien force coming to save the good people from a brutal satanic attack. Its goal is to get rid of all significant opposition to the NEW WORLD ORDER.

The third orientation is a mixture of electronic and supernatural forces. The waves [frequencies] used at that time will allow supernatural forces through fiber optics cable, coaxial cable, electric and telephone lines in order to penetrate all electronic equipment and appliances that will by then all have a special microchip installed. The goal of this step deals with the materialization of satanic ghosts, spectres, and poltergiests all across the globe in order to push all populations to the edge of a wave of suicide, killing and permanent psychological disorder.

After that night of the THOUSAND STARS, HUMANITY IS BELIEVED TO BE READY FOR THEM TO ENTER IN A 'NEW MESSIAH' TO REESTABLISH PEACE EVERYWHERE AT ANY COST, EVEN AT THE COST OF FREEDOM.

copyright of this material belongs to Serge Monast or his family, NOT Cornell University. See Blue Beam Part 1

.

'David Esur' - a military soldier who actually released secrets from the NSA (it is believed). Last reported as 'he is worried for his life' because of releasing it, he has disappeared from my email list. But then again, I never really was able to contact him to begin with - he contacted me, once. He released: 'Subliminal Implanted Posthypnotic Suggestions and Scripts Using Acoustically Delivered and Phonetically Accelerated Posthypnotic Commands without Somnambulistic Preparation in the Subject for Intelligence and Counterintelligence Applications by the United States National Security Agency.' I think he disappeared....like Ross Adey.... and I think that the writer of the article below, Timothy Thomas, may have too. But who knows? Foreign Military Studies Office 101 Meade Ave Fort Leavenworth, KS 66027-1351

The Mind Has No Firewall

Mr. Timothy L. Thomas Foreign Military Studies Office,
Fort Leavenworth, KS.

This article first appeared in the Spring 1998 issue of *Parameters*

'It is completely clear that the state which is first to create such weapons will achieve incomparable superiority.' -Major I. Chernishev, Russian Army.

1 The human body, much like a computer, contains myriad data processors. They include, but are not limited to, the chemical-electrical activity of the brain, heart, and peripheral nervous-system, the signals sent from the cortex region of the brain to other parts of our body, the tiny hair-cells in the inner ear that process auditory signals, and the light-sensitive retina and cornea of the eye that process visual activity.

2 We are on the threshold of an era in which these data processors of the human body may be manipulated or debilitated. Examples of unplanned attacks on the body's data-processing capability are well-documented. Strobe-lights have been known to cause epileptic seizures. Not long ago in Japan, children watching television cartoons were subjected to pulsating lights that caused seizures in some and made others very sick.

Defending friendly and targeting adversary data-processing capabilities of the body appears to be an area of weakness in the US approach to information warfare theory, a theory oriented heavily toward systems data processing and designed to attain information dominance on the battlefield. Or so it would appear from information in the open, unclassified press. This US shortcoming may be a serious one, since the capabilities to alter the data processing systems of the body already exist. A recent edition of U.S. News and World Report highlighted several of these 'wonder weapons' (acoustics, microwaves, lasers) and noted that scientists are 'searching the electromagnetic and sonic spectrums for wavelengths that can affect human behavior.'

3 A recent Russian military article offered a slightly different slant to the problem, declaring that 'humanity stands on the brink of a psychotropic war' with the mind and body as the focus. That article discussed Russian and international attempts to control the psycho-physical condition of man and his decision making processes by the use of VHF-generators, 'noiseless cassettes,' and other technologies. An entirely new arsenal of weapons, based on devices designed to introduce subliminal messages or to alter the body's psychological and data processing capabilities, might be used to incapacitate individuals. These weapons aim to control or alter the psyche, or to attack the various sensory and data-processing systems of the human organism. In both cases, the goal is to confuse or destroy the signals that normally keep the body in equilibrium. This article examines energy-based weapons, psychotropic weapons, and other developments designed to alter the ability of the human body to process stimuli. One consequence of this assessment is that the way we commonly use the term 'information warfare' falls short when the individual soldier, not his equipment, becomes the target of attack.

Information Warfare Theory and the Data-Processing Element of Humans

In the United States the common conception of information warfare focuses primarily on the capabilities of hardware systems such as computers, satellites, and military equipment which process data in its various forms. According to Department of Defense Directive S-3600. 1 of 9 December 1996, information warfare is defined as 'an information operation conducted during time of crisis or conflict to achieve or promote specific objectives over a specific adversary or adversaries.' An information operation is defined in the same directive as 'actions taken to affect adversary information and information systems while defending one's own information and information systems.' These 'information systems' lie at the heart of the modernization effort of the US armed forces and other countries, and manifest themselves as hardware, software, communications capabilities, and highly trained individuals.

Recently, the US Army conducted a mock battle that tested these systems under simulated combat conditions. US Army Field Manual 101-5-1, Operational Terms and Graphics (released 30 September 1997), defines information warfare as 'actions taken to achieve information superiority by affecting a hostile's information, information based-processes, and information systems, while defending one's own information, information processes, and information systems.' The same manual defines information operations as a 'continuous military operation within the military information environment that enables, enhances, and protects friendly forces' ability to collect, process, and act on information to achieve an advantage across the full range of military operations. [Information operations include] interacting with the Global Information Environment . . . and exploiting or denying an adversary's information and decision capabilities.'

4 This 'systems' approach to the study of information warfare emphasizes the use of data, referred to as information, to penetrate an adversary's physical defenses that protect data (information) in order to obtain operational or strategic advantage. It has tended to ignore the role of the human body as an information- or data-processor in this quest for dominance except in those cases where an individual's logic or rational

thought may be upset via disinformation or deception. As a consequence little attention is directed toward protecting the mind and body with a firewall as we have done with hardware systems. Nor have any techniques for doing so been prescribed. Yet the body is capable not only of being deceived, manipulated, or misinformed but also shut down or destroyed - just as any other data-processing system. The 'data' the body receives from external sources - such as electromagnetic, vortex, or acoustic energy waves - or creates through its own electrical or chemical stimuli can be manipulated or changed just as the data (information) in any hardware system can be altered. The only body-related information warfare element considered by the United States is psychological operations (PSYOP). In Joint Publication 3-13. 1, for example, PSYOP is listed as one of the elements of command and control warfare. The publication notes that 'the ultimate target of [information warfare] is the information dependent process, whether human or automated .... Command and control warfare (C2W) is an application of information warfare in military operations.... C2W is the integrated use of PSYOP, military deception, operations security, electronic warfare and physical destruction.'

5 One source defines information as a 'non-accidental signal used as an input to a computer or communications system.'

6 The human body is a complex communication system constantly receiving non-accidental and accidental signal inputs, both external and internal. If the ultimate target of information warfare is the information-dependent process, 'whether human or automated,' then the definition in the joint publication implies that human data-processing of internal and external signals can clearly be considered an aspect of information warfare. Foreign researchers have noted the link between humans as data processors and the conduct of information warfare. While some study only the PSYOP link, others go beyond it. As an example of the former, one recent Russian article described offensive information warfare as designed to 'use the Internet channels for the purpose of organizing PSYOP as well as for 'early political warning' of threats to American interests.'

7 The author's assertion was based on the fact that 'all mass media (especially TV "programming" - JAH) are used for PSYOP . . . [and] today this must include the Internet.' The author asserted that the Pentagon wanted to use the Internet to 'reinforce psychological influences' during special

operations conducted outside of US borders to enlist sympathizers, who would accomplish many of the tasks previously entrusted to special units of the US armed forces. Others, however, look beyond simple PSYOP ties to consider other aspects of the body's data-processing capability. One of the principal open source researchers on the relationship of information warfare to the body's data-processing capability is Russian Dr. Victor Solntsev of the Baumann Technical Institute in Moscow. Solntsev is a young, well-intentioned researcher striving to point out to the world the potential dangers of the computer operator interface. Supported by a network of institutes and academies, Solntsev has produced some interesting concepts.

8 He insists that man must be viewed as an open system instead of simply as an organism or closed system. As an open system, man communicates with his environment through information flows and communications media. One's physical environment, whether through electromagnetic, gravitational, acoustic, or other effects, can cause a change in the psycho-physiological condition of an organism, in Solntsev's opinion. Change of this sort could directly affect the mental state and consciousness of a computer operator. This would not be electronic war or information warfare in the traditional sense, but rather in a non-traditional and non-US sense. It might encompass, for example, a computer modified to become a weapon by using its energy output to emit acoustics that debilitate the operator. It also might encompass, as indicated below, futuristic weapons aimed against man's 'open system.' Solntsev also examined the problem of 'information noise,' which creates a dense shield between a person and external reality. This noise may manifest itself in the form of signals, messages, images, or other items of information.

The main target of this noise would be the consciousness of a person or a group of people. Behavior modification could be one objective of information noise; another could be to upset an individual's mental capacity to such an extent as to prevent reaction to any stimulus. Solntsev concludes that all levels of a person's psyche (subconscious, conscious, and 'super-conscious') are potential targets for destabilization. According to Solntsev, one computer virus capable of affecting a person's psyche is Russian Virus 666. It manifests itself in every 25th frame of a visual display, where it produces a combination of colors that allegedly put computer operators into a trance. The subconscious perception of the new pattern eventually results

in arrhythmia of the heart. Other Russian computer specialists, not just Solntsev, talk openly about this '25th frame effect' and its ability to subtly manage a computer user's perceptions. The purpose of this technique is to inject a thought into the viewer's subconscious. It may remind some of the subliminal advertising controversy in the United States in the late 1950s.

US Views on 'Wonder Weapons': Altering the Data-Processing Ability of the Body

What technologies have been examined by the United States that possess the potential to disrupt the data-processing capabilities of the human organism? The 7 July 1997 issue of U.S. News and World Report described several of them designed, among other things, to vibrate the insides of humans, stun or nauseate them, put them to sleep, heat them up, or knock them down with a shock wave. 9 The technologies include dazzling lasers that can force the pupils to close; acoustic or sonic frequencies that cause the hair-cells in the inner ear to vibrate and cause motion-sickness, vertigo, and nausea, or frequencies that resonate the internal organs causing pain and spasms; and shock-waves with the potential to knock down humans or airplanes and which can be mixed with pepper-spray or chemicals.

10 With modification, these technological applications can have many uses. Acoustic weapons, for example, could be adapted for use as acoustic rifles or as acoustic fields that, once established, might protect facilities, assist in hostage rescues, control riots, or clear paths for convoys. These waves, which can penetrate buildings, offer a host of opportunities for military and law enforcement officials. Microwave weapons, by stimulating the peripheral nervous-system, can heat up the body, induce epileptic-like seizures, or cause cardiac-arrest. Low-frequency radiation affects the electrical activity of the brain and can cause flu-like symptoms and nausea. Other projects sought to induce or prevent sleep, or to affect the signal from the motor cortex portion of the brain, overriding voluntary muscle movements. The latter are referred to as pulse-wave weapons, and the Russian government has reportedly bought over 100,000 copies of the 'Black Widow' version of them.

11 However, this view of 'wonder weapons' was contested by someone who should understand them. Brigadier General Larry Dodgen, Deputy Assistant

to the Secretary of Defense for Policy and Missions, wrote a letter to the editor about the 'numerous inaccuracies' in the U.S. News and World Report article that 'misrepresent the Department of Defense's views.'

12 Dodgen's primary complaint seemed to have been that the magazine misrepresented the use of these technologies and their value to the armed forces. He also underscored the US intent to work within the scope of any international treaty concerning their application, as well as plans to abandon (or at least redesign) any weapon for which countermeasures are known. One is left with the feeling, however, that research in this area is intense. A concern not mentioned by Dodgen is that other countries or non-state actors may not be bound by the same constraints. It is hard to imagine someone with a greater desire than terrorists to get their hands on these technologies. 'Psycho-terrorism' could be the next buzzword.

Russian Views on 'Psychotropic War'

The term 'psycho-terrorism' was coined by Russian writer N. Anisimov of the Moscow Anti-Psychotronic Center. According to Anisimov, psychotropic weapons are those that act to 'take away a part of the information which is stored in a man's brain. It is sent to a computer, which reworks it to the level needed for those who need to control the man, and the modified information is then reinserted into the brain.' These weapons are used against the mind to induce hallucinations, sickness, mutations in human cells, 'zombification,' or even death. Included in the arsenal are VHF generators, X-rays, ultrasound, and radio waves. Russian army Major I. Chernishev, writing in the military journal Orienteer in February 1997, asserted that 'psy' weapons are under development all over the globe. Specific types of weapons noted by Chernishev (not all of which have prototypes) were: A psychotropic generator, which produces a powerful electromagnetic emanation capable of being sent through telephone lines, TV, radio networks, supply pipes, and incandescent lamps. An autonomous generator, a device that operates in the 10-150 Hertz band, which at the 10-20 Hertz band forms an infrasonic oscillation that is destructive to all living creatures. A nervous system generator, designed to paralyze the central nervous systems of insects, which could have the same applicability to humans. Ultrasound emanations, which one institute claims to have developed. Devices using ultrasound emanations are supposedly capable of carrying out bloodless internal operations without leaving a mark on the

skin. They can also, according to Chernishev, be used to kill.

Noiseless cassettes.

Chernishev claims that the Japanese have developed the ability to place infra-low frequency voice patterns over music, patterns that are detected by the subconscious. Russians claim to be using similar 'bombardments' with computer programming to treat alcoholism or smoking.

The 25th-frame effect, alluded to above, a technique wherein each 25th frame of a movie reel or film footage contains a message that is picked up by the subconscious. This technique, if it works, could possibly be used to curb smoking and alcoholism, but it has wider, more sinister applications if used on a TV audience or a computer operator. Psychotropics, defined as medical preparations used to induce a trance, euphoria, or depression. Referred to as 'slow-acting mines,' they could be slipped into the food of a politician or into the water supply of an entire city. Symptoms include headaches, noises, voices or commands in the brain, dizziness, pain in the abdominal cavities, cardiac arrhythmia, or even the destruction of the cardiovascular system.

There is confirmation from US researchers that this type of study is going on. Dr. Janet Morris, co-author of *The Warrior's Edge*, reportedly went to the Moscow Institute of Psycho correlations in 1991. There she was shown a technique pioneered by the Russian Department of Psycho-Correction at Moscow Medical Academy in which researchers electronically analyze the human mind in order to influence it. They input subliminal command messages, using key words transmitted in 'white noise' or music. Using an infra-sound, very low frequency transmission, the acoustic psycho-correction message is transmitted via bone conduction.

13 In summary, Chernishev noted that some of the militarily significant aspects of the 'psy' weaponry deserve closer research, including the following non-traditional methods for disrupting the psyche of an individual: ESP research: determining the properties and condition of objects without ever making contact with them and 'reading' peoples' thoughts Clairvoyance research: observing objects that are located just beyond the world of the visible - used
for intelligence purposes Telepathy research: transmitting thoughts over a

distance - used for covert operations Telekinesis research: actions involving the manipulation of physical objects using thought power, causing them to move or break apart - used against command and control systems, or to disrupt the functioning of weapons of mass destruction Psychokinesis research: interfering with the thoughts of individuals, on either the strategic or tactical level

While many US scientists undoubtedly question this research, it receives strong support in Moscow. The point to underscore is that individuals in Russia (and other countries as well) believe these means can be used to attack or steal from the data-processing unit of the human body. Solntsev's research, mentioned above, differs slightly from that of Chernishev. For example, Solntsev is more interested in hardware capabilities, specifically the study of the information-energy source associated with the computer-operator interface. He stresses that if these energy sources can be captured and integrated into the modern computer, the result will be a network worth more than 'a simple sum of its components.' Other researchers are studying high-frequency generators (those designed to stun the psyche with high frequency waves such as electromagnetic, acoustic, and gravitational); the manipulation or reconstruction of someone's thinking through planned measures such as reflexive control processes; the use of psychotronics, parapsychology, bioenergy, bio fields, and psycho energy;

14 and unspecified 'special operations' or anti-ESP training. The last item is of particular interest. According to a Russian TV broadcast, the strategic rocket forces have begun anti-ESP training to ensure that no outside force can take over command and control functions of the force. That is, they are trying to construct a firewall around the heads of the operators.

Conclusions
At the end of July 1997, planners for Joint Warrior Interoperability Demonstration '97 'focused on technologies that enhance real-time collaborative planning in a multinational task force of the type used in Bosnia and in Operation Desert Storm.

The JWID '97 network, called the Coalition Wide Area Network (CWAN), is the first military network that allows allied nations to participate as full and equal partners.'

15 The demonstration in effect was a trade fair for private companies to demonstrate their goods; defense ministries got to decide where and how to spend their money wiser, in many cases without incurring the cost of prototypes. It is a good exampleof doing business better with less. Technologies demonstrated included:

16 Soldiers using laptop computers to drag cross-hairs over maps to call in air strikes Soldiers carrying beepers and mobile phones rather than guns Generals tracking movements of every unit, counting the precise number of shells fired around the globe,and inspecting real-time damage inflicted on an enemy, all with multicolored graphics

17 Every account of this exercise emphasized the ability of systems to process data and provide information feedback via the power invested in their microprocessors. The ability to affect or defend the data-processing capability of the human operators of these systems was never mentioned during the exercise; it has received only slight attention during countless exercises over the past several years. The time has come to ask why we appear to be ignoring the operators of our systems. Clearly the information operator, exposed before a vast array of potentially immobilizing weapons, is the weak spot in any nation's military assets. There are few international agreements protecting the individual soldier, and these rely on the good will of the combatants. Some nations, and terrorists of every stripe, don't care about such agreements.

This article has used the term data-processing to demonstrate its importance to ascertaining what so-called information warfare and information operations are all about. Data-processing is the action this nation and others need to protect. Information is nothing more than the output of this activity. As a result, the emphasis on information-related warfare terminology ('information dominance,' 'information carousel') that has proliferated for a decade does not seem to fit the situation before us. In some cases the battle to affect or protect data-processing elements pits one mechanical system against another. In other cases, mechanical systems may be confronted by the human organism, or vice versa, since humans can usually shut down any mechanical system with the flip of a switch. In reality, the game is about protecting or affecting signals, waves, and impulses that can influence the data-processing elements of systems, computers, or people. We are

potentially the biggest victims of information warfare, because we have neglected to protect ourselves.

Our obsession with a 'system of systems,' 'information dominance,' and other such terminology is most likely a leading cause of our neglect of the human factor in our theories of information warfare. It is time to change our terminology and our conceptual paradigm. Our terminology is confusing us and sending us in directions that deal primarily with the hardware, software, and communications components of the data-processing spectrum. We need to spend more time researching how to protect the humans in our data management structures. Nothing in those structures can be sustained if our operators have been debilitated by potential adversaries or terrorists who - right now - may be designing the means to disrupt the human component of our carefully constructed notion of a system of systems.
